## RULING #5

Trainer Georgina Baxter

Permit #46507

On **January 15, 2022**, the Board of Stewards offered a hearing to **Trainer, Georgina Baxter, Permit #46507, DOB 06/03/1974**. The hearing took place at **10:00 am** on **February 1, 2022** regarding a medication violation pertaining to her horse "**R Adios Jersey**" who finished **first (1<sup>st</sup>)** in the eleventh (**11<sup>th</sup>**) race on **Friday August 27, 2021**.

The Stewards hereby find the following: The official blood sample **#E432550**, taken on **08/27/2021** was reported by Industrial Laboratories, the official testing laboratory, to contain **Flunixin** which is **Class 4** drug, with a **C Penalty**, designation. Sample **#E432550** contained **Flunixin** confirmed in the blood at **1121 ng/ml**. The sample was taken from the **Eight (8)** horse, "**R Adios Jersey**", which ran in the **11<sup>th</sup> Race on 08/27/2022, finishing first**.

**Ms. Baxter** elected to have a split sample tested. The split **#E432550** was sent to **New York Drug Testing and Research Program** and was received on **10/13/2021** and reported on **10/27/2021**. Sample **#E432550** contained **985 ng/ml** which is above the permissible level for this drug, confirming the presences of the drug **Flunixin**.

**Ms. Baxter** also elected to have a blood sample sent to the **Veterinary Genetics Laboratory School of Veterinary Medicine** at the **University of California, Davis**. The **DNA** profile obtained from the blood sample **E432550** tested as **FCH323-1**, was identical to the **DNA** on file for the filly "**R Adios Jersey**". The **DNA** database of over **3.3 million** horses revealed one match to this profile, "**R Adios Jersey**".

Pursuant to **178 W. Va. C.S.R. 1, section 24.11.o**, The Stewards are authorized to take disciplinary action against a permit holder for violating any provision of the Thoroughbred Racing Rule.

Pursuant to section **51.1.a, of the Thoroughbred Racing Rule, 178 W.Va.C.S.R.1**: "The trainer is the absolute insurer of and responsible for the condition of the horses he or she enters in an official workout or a race, regardless of the acts of third parties. If testing or analysis of urine, blood or other bodily substances or tissues prove positive showing the presence of any prohibited drug, medication or substance, the trainer of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined. In addition, the owner of the horse, the foreman in charge of the horse, the groom, and any other person shown to have had the care, attendance of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined."

Pursuant to **178 W. Va. C.S.R. 1, section 49.4.a.2.**, a finding by a Racing Commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was administered to the horse, and in the case of a post-race test, was present in the horse's body while it was participating. Prohibited substances included controlled therapeutic medications in excess of established threshold concentrations as set forth in the Association of Racing Commissioners International Controlled Therapeutic Medication Schedule, Version 3.2., contained in Table 178-1 F of the Thoroughbred Racing Rule.

Pursuant to **178 W. Va. C.S.R. 1, Table 178-1 F**, Because the amount of **Flunixin** in "**R Adios Jersey**" exceeded the acceptable threshold set forth in **Table 178-1 F**. **Ms. Baxter** may be held responsible and her occupational permit disciplined pursuant to **178 W. Va. C.S.R. 1, sections 49.4.a.2. and 51.1.a**.

The **Flunixin** positive in "**R Adios Jersey**" is **Ms. Baxter's First Offense** in this category for a medication/substance violation in a **365 days** period.

The permit holder has accumulated **0 points** under the multiple medication violation point system as a result of this issuance. **Ms. Baxter** is assessed **½ point** for this **Flunixin** medication/substance violation pursuant to section **49.3.m. of 178 of W.Va.C.S.R.1**.

The Stewards determine the appropriate penalty for the underlying offense on a case by case basis by considering mitigating and aggravating factors. The following is an analysis of the factors set forth in section **49.1 of the Thoroughbred Racing Rule**:

1. **(Mitigating) The Permit holder's past record:** The permit holder has no violations in this class category in the last 365 days.
2. **(Mitigating) The potential of the drug to influence the horse's racing performance:** Pursuant to 178 W. Va. C.S.R. 1, section 49.2.d, Class 4 drugs may influence performance, but generally have a more limited ability to do so. This is a mitigating factor although it is always of concern to the Stewards when a horse tests in excess of a threshold set forth in the Thoroughbred Racing Rule inasmuch as such thresholds are designed to ensure that horses aren't racing under the effects of the medication, to allow a state veterinarian conducting a pre-race examination to have as clean a look at the horse as is possible to make sure that the horse does not have some condition that would cause it to harm itself if it races, and to ensure the integrity of racing so that horse's aren't racing under the effect of a medication that could affect performance.
3. **(Mitigating) The legal availability of the oral application:** Flunixin is legally available.
4. **Whether there is reason to believe the permit holder knew of the administration of the drug or intentional administered the drug:** The trainer admitted to the treatment of the horse "R Adios Jersey" with Flunixin or Ketophen and thought the treatment was done within the withdrawal guidelines and dosing specifications set forth in 178 W. Va. C.S.R. 1. Table 178-1 F. so as to avoid a positive. Therefore this factor is considered in weighing the penalty in this case.
5. **The probability of environmental contamination exposure due to human use:** This factor is not applicable to this case.
6. **The purse of the race:** The race in question was a Grade 3 race with a \$400,000 Guaranteed purse. The Stewards place no weight, either aggravating or mitigating, based upon the purse in this case.
7. **Whether the drug found was one for which the horse was receiving as a treatment as documented by the treating veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** The horse was being treated by a veterinarian with Flunixin therefore, this factor is considered in weighing the penalty in this case.
8. **Whether there was any suspicious betting pattern in the race:** There is no evidence of a suspicious betting pattern in this case and therefore, this factor is not considered in weighing the penalty in this case.

Based on the above, the Stewards hereby impose the following penalty for the underlying offense:

**Ms. Baxter's horse "R Adios Jersey" will be disqualified from all purse money**, this disqualification is justified due to the irrefutable drug positive, and **Ms. Baxter will have a total of ½ points on her record**. The Flunixin positive, being the first medication violation in this class category in 365 days. **Ms. Baxter is fined \$1000.00 dollars**.

The horse "R Adios Jersey" is disqualified from all purse money. Redistribution is as following:

1. #8 Pauline's Pearl
2. #10 Allworthy
3. #1 Caramel Swirl
4. #9 Miss Leslie
5. #5 Fabricate
6. #2 Street Lute

All fines imposed by the Stewards shall be paid to the Racing Commission within **Seven (7) days** after the ruling is issued, unless otherwise ordered by the Stewards, Per West Virginia Rule of Racing Number 178-1-8.5.n.

You have the right to appeal this Ruling to the Racing Commission. Your appeal must be received in the Commission Office within 20 Days of your receipt of this Ruling and must include a security fee in the amount of \$500.00.

## RULING #21

Trainer, Runco Jeff

Permit #48944

On March 17, 2022, the Board of Stewards had a hearing for Trainer, Jeff Runco, Permit #48944, DOB 09/07/1959 regarding a medication violation pertaining to his horse "Cairo Calling" who finished first (1<sup>st</sup>) in the seventh (7<sup>th</sup>) race on Saturday February 12, 2022.

The Stewards hereby find the following:

The official blood sample #E483539, taken on 02/12/22 was reported by Industrial Laboratories, the official testing laboratory, to contain Dexamethasone which is a Class 4 drug, with a C Penalty, designation. The permissible threshold for Dexamethasone is 5 pg/mL in blood. Sample #E483539 contained 94.3 pg/mL of the drug, which is above the permissible threshold for this drug. The sample was taken from the Five (5) horse, "Cairo Calling", which ran in the 7<sup>th</sup> Race on 2/12/22, finishing First (1<sup>st</sup>).

Mr. Runco elected not to have a split sample tested

Pursuant to 178 W. Va. C.S.R. 1, section 24.11.o, The Stewards are authorized to take disciplinary action against a permit holder for violating any provision of the Thoroughbred Racing Rule.

Pursuant to section 51.1.1a, of the Thoroughbred Racing Rule, 178 W.Va.C.S.R.1: "The trainer is the absolute insurer of and responsible for the condition of the horses he or she enters in an official workout or a race, regardless of the acts of third parties. If testing or analysis of urine, blood or other bodily substances or tissues prove positive showing the presence of any prohibited drug, medication or substance, the trainer of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined. In addition, the owner of the horse, the foreman in charge of the horse, the groom, and any other person shown to have had the care, attendance of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined."

Pursuant to 178 W. Va. C.S.R. 1, section 49.4.a.2., a finding by a Racing Commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was administered to the horse, and in the case of a post-race test, was present in the horse's body while it was participating. Prohibited substances included controlled therapeutic medications in excess of established threshold concentrations as set forth in the Association of Racing Commissioners International Controlled Therapeutic Medication Schedule, Version 2.1., contained in Table 178-1 F of the Thoroughbred Racing Rule

Pursuant to 178 W. Va. C.S.R. 1, Table 178-1 F, the post-race threshold for Dexamethasone is 5 pg/mL in the blood. Because the amount of Dexamethasone in "Cairo Calling", exceeded the acceptable threshold set forth in Table 178-1 F, Mr. Runco may be held responsible and his occupational permit disciplined pursuant to 178 W. Va. C.S.R. 1, sections 49.a.1. and 51.1.a.

The Dexamethasone positive in "Cairo Calling", is Mr. Runco's First Offense in this category for a medication/substance violation in a 365 days period.

The permit holder has accumulated 0 points under the multiple medication violation point system as a result of the issuance of. Mr. Runco is assessed 0 point for this Dexamethasone medication/substance violation pursuant to section 49.3.m. of 178 of W.Va.C.S.R.1.

The Stewards determine the appropriate penalty for the underlying offense on a case by case basis by considering mitigating and aggravating factors. The following is an analysis of the factors set forth in section 49.1 of the Thoroughbred Racing Rule:

1. **(Mitigating) The Permit holder's past record:** The permit holder has no violations in the last 365 days
2. **(Mitigating) The potential of the drug to influence the horse's racing performance:** Pursuant to 178 W. Va. C.S.R. 1, section 49.2.d, Class 4 drugs may influence performance, but generally have a more limited ability to do so. This is a mitigating factor although it is always of concern to the Stewards when a horse tests in excess of a threshold set forth in the Thoroughbred Racing Rule inasmuch as such thresholds are designed to ensure that horses aren't racing under the effects of the medication; to allow a state veterinarian conducting a pre-race examination to have as clean a look at the

horse as is possible to make sure that the horse does not have some condition that would cause it to harm itself if it races, and to ensure the integrity of racing so that horse aren't racing under the effect of a medication that could affect performance.]

3. **(Mitigating) The legal availability of the drug: Dexamethasone** is legally available.
4. **Whether there is reason to believe the permit holder knew of the administration of the drug or intentional administered the drug:** At the hearing it was determined that the practicing veterinarian working for **Mr. Runco** administered **Dexamethasone** by mistake instead of **Phenylbutazone**. **Phenylbutazone** was detected in blood screening analysis at approximately **80 ng/mL**. This is well below the permitted level of **2.0 mcg/mL**. Therefore this factor was considered in weighing the penalty in this case.
5. **The probability of environmental contamination exposure due to human use:** This factor is not applicable to this case.
6. **The purse of the race:** The races in question was a **Claiming** race with a **\$19,800** purse. The Stewards place no weight, either aggravating or mitigating, based upon the purse in this case.
7. **Whether the drug found was one for which the drug was receiving a treatment as documented by the treating veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** It was not established whether or not the horse was being treated by a veterinarian with **Dexamethasone**. Therefore, this factor is not considered in weighing the penalty in this case.
8. **Whether there was any suspicious betting pattern in the race:** There is no evidence of a suspicious betting pattern in this case and therefore, this factor is not considered in weighing the penalty in this case.

Based on the above, the Stewards hereby impose the following penalty for the underlying offense: **Mr. Runco's horse "Cairo Calling", will be disqualified from all purse money and will have a total of 0 points on his record.**

The horse "Cairo Calling", is disqualified from all purse money; Re-Distribution is as following.

1. #2 Cajun Invasion
2. #7 Uottalikeit
3. #6 Golden Hughes
4. #4 Citizen's Fire
5. #8 Baytown Jakester

## RULING NUMBER #25

Owner/Trainer William "Willie" Straughn

Permit #44920

On March 16, 2022 the Board of Stewards offered a hearing to Owner/Trainer, William "Willie" Straughn Permit #44920 DOB 02/19/1959 to which he waived his right to a hearing and elected not to send a split sample, the Board of Stewards find the following:

The official blood sample #E483471 taken from the horse "Han Sense" which finished 1<sup>st</sup> in the 7<sup>th</sup> race on Thursday February 3, 2022, did contain Methotrexate contained in the blood.

Pursuant to 178 W. Va. C.S.R. 1, section 24.11.o. the Stewards are authorized to take disciplinary action against a permit holder for violating any provision of the Thoroughbred Racing Rule. Pursuant to section 51.1.1a, of the Thoroughbred Racing Rule, 178 W.Va.C.S.R.1: "The trainer is the absolute insurer of and responsible for the condition of the horses he or she enters in an official workout or a race, regardless of the acts of third parties. If testing or analysis of urine, blood or other bodily substances or tissues prove positive showing the presence of any prohibited drug, medication or substance, the trainer of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined. In addition, the owner of the horse, the foreman in charge of the horse, the groom, and any other person shown to have had the care, attendance of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined."

Pursuant to 178 W. Va. C.S.R. 1, section 49.4.a.2., a finding by a Racing Commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was administered to the horse, and in the case of a post-race test, was present in the horse's body while it was participating. Prohibited substances included controlled therapeutic medications in excess of established threshold concentrations as set forth in the Association of Racing Commissioners International Controlled Therapeutic Medication Schedule, Version 2.1., contained in Table 178-1 F of the Thoroughbred Racing Rule.

Pursuant to 178 W. Va. C.S.R. 1, Table 178-1 F, there is no post-race threshold for Methotrexate, Methotrexate is a prohibited drug. Mr. Straughn may be held responsible and his or her occupational permit disciplined pursuant to 178 W. Va. C.S.R. 1, sections 49.a.1. and 51.1.a.

The Methotrexate positive in "Han Sense" is Mr. Straughn's First Offense for a medication/substance violation carrying a Category B penalty in a 365 days period.

The permit holder has 0 points under the multiple medication violation point system. Mr. Straughn is assessed 2 points for this Methotrexate medication/substance violation pursuant to section 49.3.m. of 178 of W.Va.C.S.R.1.

The penalty guidelines set forth in Table 178 1 E of the Thoroughbred Racing Rule provide a minimum penalty of a \$500 fine, for a First Offense Class 4 violation carrying a Category B penalty of Methotrexate at the level found in "Han Sense". The Stewards determine the appropriate penalty for the underlying offense on a case by case basis by considering mitigating and aggravating factors. The following is an analysis of the factors set forth in section 49.1 of the Thoroughbred Racing Rule:

1. **(Mitigating) The Permit holders past record:** The permit holder's past record indicates this is her first Class 4 violation carrying a Category B penalty in the past 365 days. Therefore, the permit holder's past record is a mitigating factor.
2. **(Mitigating) The potential of the drug to influence the horse's racing performance:** Pursuant to 178 W. Va. C.S.R. 1, section 49.2.d. Class 4 drugs may influence performance, but generally have a more limited ability to do so. This is a mitigating factor although it is always of concern to the Stewards when a horse tests in excess of a threshold set forth in the Thoroughbred Racing Rule inasmuch as such thresholds are designed to ensure that horses aren't racing under the effects of the medication; to allow a state veterinarian conducting a pre-race examination to have as clean a look at the horse as is possible to make sure that the horse does not have some condition that would cause it to harm itself if it races, and to ensure the integrity of racing so that horse aren't racing under the effect of a medication that could affect performance.]

3. **(Mitigating)** The legal availability of the drug: Methotrexate is legally available.
4. **Whether there is reason to believe the permit holder knew of the administration of the drug or intentional administered the drug:** Inasmuch as there was no hearing in this matter it was not established whether or not the permit holder knew of the administration of the drug, nor the circumstances under which the drug may have been given. Therefore this factor is not considered in weighing the penalty in this case.
5. **The probability of environmental contamination exposure due to human use:** This factor is not applicable to this case.
6. **The purse of the race:** The race in question was a **Starter Optional Claiming** race with a **\$22,000** purse. The Stewards place no weight, either aggravating or mitigating, based upon the purse in this case.
7. **Whether the drug found was one for which the horse was receiving a treatment as documented by the treating veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** Inasmuch as there was no hearing in this matter it was not established whether or not the horse was being treated by a veterinarian with **Clenbuterol**. Therefore, this factor is not considered in weighing the penalty in this case.
8. **Whether there was any suspicious betting pattern in the race:** There is no evidence of a suspicious betting pattern in this case and therefore, this factor is not considered in weighing the penalty in this case.
9. **Whether the trainer was acting under the advice of a veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** Inasmuch as there was no hearing in this matter it was not established whether or not the horse was being treated with **Methotrexate** by a veterinarian. Therefore, this factor is not considered in weighing the penalty in this case.

Based on the findings and **WV Rule of Racing 178-1-49.2.d** Methotrexate is a medication which is a **Class 4** with a **B Penalty**. **Mr. Straughn** this being his first offense in the past 365 days is hereby fined **(\$500) five hundred dollars** and suspended **15** calendar days, commencing on Friday March 25 thru and including April 8, 2022. Her horse "**Han Sense**" will be disqualified from all purse earnings. The order of finish is hereby re-ordered as follows:

1. **#8 To the Front**
2. **#4 Impetuous**
3. **#7 Freedom Is Ringing**
4. **#6 Black Candy**
5. **#3 Gold and Strike**
6. **#5 Interesting Legacy**

All fines imposed by the Stewards shall be paid to the Racing Commission within **Seven (7) days** after the ruling is issued, unless otherwise ordered by the Stewards, Per West Virginia Rule of Racing Number 178-1-8.5.n. You have the right to appeal this ruling to the Racing Commission. Your appeal must be received in the Commission Office within **20 days** of your receipt of this ruling and must include a security fee in the amount of **Five Hundred (\$500.00) Dollars**.

## RULING #29

Trainer Sara Kopecki

Permit #50178

On April 23, 2022, the Board of Stewards offered a hearing to Trainer, Sara Kopecki, Permit #50178, DOB 11/24/1950, to which she waived her right to a hearing regarding her horse "B. J. Moose" who finished fourth (4<sup>th</sup>) in the third (3<sup>rd</sup>) race on Wednesday April 6, 2022.

The Stewards hereby find the following: The official blood sample #E483851, taken on 04/06/2022 was reported by Industrial Laboratories, the official testing laboratory, to contain Flunixin which is Class 4 drug, with a C Penalty, designation. Sample #E483851 contained Flunixin confirmed in the blood at 149 ng/ml. The sample was taken from the Three (3) horse, "B. J. Moose", which ran in the 3<sup>rd</sup> Race on 04/06/2022, finishing fourth.

Ms. Kopecki elected to not have a split sample tested.

Pursuant to 178 W. Va. C.S.R. 1, section 24.11.o, The Stewards are authorized to take disciplinary action against a permit holder for violating any provision of the Thoroughbred Racing Rule.

Pursuant to section 51.1.a, of the Thoroughbred Racing Rule, 178 W.Va.C.S.R.1: "The trainer is the absolute insurer of and responsible for the condition of the horses he or she enters in an official workout or a race, regardless of the acts of third parties. If testing or analysis of urine, blood or other bodily substances or tissues prove positive showing the presence of any prohibited drug, medication or substance, the trainer of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined. In addition, the owner of the horse, the foreman in charge of the horse, the groom, and any other person shown to have had the care, attendance of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined."

Pursuant to 178 W. Va. C.S.R. 1, section 49.4.a.2., a finding by a Racing Commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was administered to the horse, and in the case of a post-race test, was present in the horse's body while it was participating. Prohibited substances included controlled therapeutic medications in excess of established threshold concentrations as set forth in the Association of Racing Commissioners International Controlled Therapeutic Medication Schedule, Version 3.2., contained in Table 178-1 F of the Thoroughbred Racing Rule.

Pursuant to 178 W. Va. C.S.R. 1, Table 178-1 F, Because the amount of Flunixin in "B. J. Moose" exceeded the acceptable threshold set forth in Table 178-1 F. Ms. Kopecki may be held responsible and her occupational permit disciplined pursuant to 178 W. Va. C.S.R. 1. sections 49.4.a.2. and 51.1.a.

The Flunixin positive in "B. J. Moose" is Ms. Kopecki's First Offense in this category for a medication/substance violation in a 365 days period.

The permit holder has accumulated 0 points under the multiple medication violation point system as a result of this issuance. Ms. Kopecki is assessed ½ point for this Flunixin medication/substance violation pursuant to section 49.3.m. of 178 of W.Va.C.S.R.1.

The Stewards determine the appropriate penalty for the underlying offense on a case by case basis by considering mitigating and aggravating factors. The following is an analysis of the factors set forth in section 49.1 of the Thoroughbred Racing Rule:

1. **(Mitigating) The Permit holder's past record:** The permit holder has no violations in this class category in the last 365 days.
2. **(Mitigating) The potential of the drug to influence the horse's racing performance:** Pursuant to 178 W. Va. C.S.R. 1, section 49.2.d, Class 4 drugs may influence performance, but generally have a more limited ability to do so. This is a mitigating factor although it is always of concern to the Stewards when a horse tests in excess of a threshold set forth in the Thoroughbred Racing Rule inasmuch as such thresholds are designed to ensure that horses aren't racing under the effects of the medication, to allow a state veterinarian conducting a pre-race examination to have as clean a look at the horse as is possible to make sure that the horse does not have some condition that would cause it to harm itself if it

racers, and to ensure the integrity of racing so that horse's aren't racing under the effect of a medication that could affect performance.

3. **(Mitigating) The legal availability of the oral application: Flunixin** is legally available.
4. **Whether there is reason to believe the permit holder knew of the administration of the drug or intentional administered the drug:** Inasmuch as there was no hearing in this matter it was not established whether or not the permit holder knew of the administration of the drug, nor the circumstances under which the drug may have been given. Therefore this factor is not considered in weighing the penalty in this case.
5. **The probability of environmental contamination exposure due to human use:** This factor is not applicable to this case.
6. **The purse of the race:** The race in question was a **Maiden** race with a **\$32,700 purse**. The Stewards place no weight, either aggravating or mitigating, based upon the purse in this case.
7. **Whether the drug found was one for which the horse was receiving as a treatment as documented by the treating veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** Inasmuch as there was no hearing in this matter it was not established whether or not the permit holder knew of the administration of the drug, nor the circumstances under which the drug may have been given. Therefore this factor is not considered in weighing the penalty in this case.
8. **Whether there was any suspicious betting pattern in the race:** There is no evidence of a suspicious betting pattern in this case and therefore, this factor is not considered in weighing the penalty in this case.
9. **Whether the trainer was acting under the advice of a veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** Inasmuch as there was no hearing in this matter it was not established whether or not the horse was being treated with **Flunixin** by a veterinarian. Therefore, this factor is not considered in weighing the penalty in this case.

Based on the above, the Stewards hereby impose the following penalty for the underlying offense:

**Ms. Kopecki's "B. J. Moose" horse will be disqualified from all purse money, and Ms. Kopecki will have a total of ½ points on her record. The Flunixin positive, being the first medication violation in this class category in 365 days. Ms. Kopecki is fined \$1000.00 dollars.**

The horse "B. J. Moose" is disqualified from all purse money. Redistribution is as following:

1. #2 Spirit of Windsor
2. #1 Nice But Naughty
3. #5 Figaros Fortune
4. #6 C R's Uncle Lino
5. #4 Youhavetobesomean
6. #7 Indian Empire

All fines imposed by the Stewards shall be paid to the Racing Commission within **Seven (7) days** after the ruling is issued, unless otherwise ordered by the Stewards, Per West Virginia Rule of Racing Number 178-1-8.5.n.

You have the right to appeal this Ruling to the Racing Commission. Your appeal must be received in the Commission Office within 20 Days of your receipt of this Ruling and must include a security fee in the amount of \$500.00.

## RULING #30

Owner/Trainer, Elex D. Bowman

Permit #52303

On Thursday April 28, 2022 the Board of Stewards offered a hearing to Owner/Trainer, Elex D. Bowman Permit #52303, DOB 01/06/1944 to which he waived his right to a hearing regarding a medication violation pertaining to his horse "Lilbitsofdrama" who finished first (1<sup>st</sup>) in the First (1<sup>st</sup>) race on Saturday April 9, 2022.

The Stewards hereby find the following: The official blood sample #E483880 taken on 4/09/22 was reported by Industrial Laboratories, the official testing laboratory, to contain Flunixin and Phenylbutazone which are a Class 4 drugs, with a C Penalty, designation. Sample #E483880 contained 44.4 ng/ml of Flunixin and .5 ug/ml of Phenylbutazone, which is above the permissible thresholds for these drugs when stacked together. The sample was taken from the Three (3) horse, "Lilbitsofdrama" which ran in the 1st Race on 4/09/22, finishing first.

Mr. Bowman elected not to have a split sample tested.

Pursuant to 178 W. Va. C.S.R. 1, section 24.11.o, The Stewards are authorized to take disciplinary action against a permit holder for violating any provision of the Thoroughbred Racing Rule.

Pursuant to section 51.1.a, of the Thoroughbred Racing Rule, 178 W.Va.C.S.R.1: "The trainer is the absolute insurer of and responsible for the condition of the horses he or she enters in an official workout or a race, regardless of the acts of third parties. If testing or analysis of urine, blood or other bodily substances or tissues prove positive showing the presence of any prohibited drug, medication or substance, the trainer of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined. In addition, the owner of the horse, the foreman in charge of the horse, the groom, and any other person shown to have had the care, attendance of the horse may be fined, suspended, have his or her occupational permit revoked, be prohibited access to all grounds under the jurisdiction of the Racing Commission, or may be otherwise disciplined."

Pursuant to 178 W. Va. C.S.R. 1, section 49.4.a.2., a finding by a Racing Commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was administered to the horse, and in the case of a post-race test, was present in the horse's body while it was participating. Prohibited substances included controlled therapeutic medications in excess of established threshold concentrations as set forth in the Association of Racing Commissioners International Controlled Therapeutic Medication Schedule, Version 3.2., contained in Table 178-1 F of the Thoroughbred Racing Rule

Pursuant to 178 W. Va. C.S.R. 1, Table 178-1 F, Because the amount of Flunixin and Phenylbutazone in "Lilbitsofdrama" exceeded the acceptable threshold set forth in Table 178-1 F, Mr. Bowman may be held responsible and his occupational permit disciplined pursuant to 178 W. Va. C.S.R. 1, sections 49.4.a.2. and 51.1.a.

This Stacking violation is Mr. Bowman's first in this category for a medication/substance violation in a 365 days period.

The permit holder has accumulated 0.5 points under the multiple medication violation point system. Mr. Bowman is assessed ½ point for this medication/substance violation pursuant to section 49.3.m. of 178 of W.Va.C.S.R.1.

The Stewards determine the appropriate penalty for the underlying offense on a case by case basis by considering mitigating and aggravating factors. The following is an analysis of the factors set forth in section 49.1 of the Thoroughbred Racing Rule:

1. **(Mitigating) The Permit holder's past record:** Mr. Bowman's first in this category for a medication/substance violation in a 365 days period.
2. **(Mitigating) The potential of the drug to influence the horse's racing performance:** Pursuant to 178 W. Va. C.S.R. 1, section 49.2.d, Class 4 drugs may influence performance, but generally have a more limited ability to do so. This is a mitigating factor although it is always of concern to the Stewards when a horse tests in excess of a threshold set forth in the Thoroughbred Racing Rule inasmuch as such thresholds are designed to ensure that horses aren't racing under the effects of the medication, to allow a state veterinarian conducting a pre-race examination to have as clean a look at the horse as is possible to make sure that the horse does not have some condition that would cause it to harm itself if it

racers, and to ensure the integrity of racing so that horses aren't racing under the effect of a medication that could affect performance.

3. **(Mitigating) The legal availability of the drug:** Flunixin and Phenylbutazone are legally available.
4. **Whether there is reason to believe the permit holder knew of the administration of the drug or intentionally administered the drug:** Inasmuch as there was no hearing in this matter it was not established whether or not the permit holder knew of the administration of the drug, or the circumstances under which the drug may have been given. Therefore this factor is not considered in weighing the penalty in this case.
5. **The steps taken by the trainer to safeguard the horse:** Inasmuch as there was no hearing in this case it is unknown what efforts the trainer made to ensure that the treatment of the horse with **Flunixin and Phenylbutazone** was done within the withdrawal guidelines and dosing specifications set forth in **178 W. Va. C.S.R. 1, Table 178-1 F**, so as to avoid a positive. Therefore this factor is not considered in weighing the penalty in this case.
6. **The probability of environmental contamination exposure due to human use:** This factor is not applicable to this case.
7. **The purse of the race:** The race in question was a **Maiden Claiming** race with a **\$13,300 purse**. The Stewards place no weight, either aggravating or mitigating, based upon the purse in this case.
8. **Whether the drug found was one for which the horse was receiving as a treatment as documented by the treating veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** Inasmuch as there was no hearing in this matter it was not established whether or not the horse was being treated by a veterinarian with **Flunixin and Phenylbutazone**. Therefore, this factor is not considered in weighing the penalty in this case.
9. **Whether there was any suspicious betting pattern in the race:** There is no evidence of a suspicious betting pattern in this case and therefore, this factor is not considered in weighing the penalty in this case.
10. **Whether the trainer was acting under the advice of a veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission:** Inasmuch as there was no hearing in this matter it was not established whether or not the horse was being treated with **Flunixin and Phenylbutazone** by a veterinarian. Therefore, this factor is not considered in weighing the penalty in this case.

Based on the above, the Stewards hereby impose the following penalty for the underlying offense:

**Mr. Bowman's horse "Lilbitsofdrama" will be disqualified from all purse money and Mr. Bowman will have a total of 1 point on his record. With the Flunixin and Phenylbutazone positive being the first medication violation in 365 day. Mr. Bowman is fined \$1000 dollars. The horse "Lilbitsofdrama" is disqualified from all purse money; The distribution is as follows.**

1. #4 Hazy Winter
2. #2 Trueno Fuerte
3. #1 Petite N' Smitty
4. #5 Bads Lil Lady
5. #6 Sterling Ariel
